DOMESTIC SECTION 214 APPLICATION FILED FOR TRANSFER OF CONTROL OF DYNEGY CONNECT, L.P. TO 360CARRIER MANAGEMENT INC.

STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 03-80

On March 14, 2003, 360carrier management inc. ("360-CMI" or "Transferee") and Dynegy Global Communications, Inc. ("DGC" or "Transferor") (together "Applicants"), filed an application pursuant to section 63.04 of the Commission's rules,¹ to transfer control of Dynegy Connect, L.P., ("Dynegy Connect") from DGC to 360-CMI.²

Applicants assert that this transaction is entitled to presumptive streamlined treatment pursuant to section 63.03(b)(2)(i) of the Commission's rules because the transaction would result in the 'Transferee having a market share in the interstate, interexchange market of less than 10 percent; the Transferee would provide competitive telephone exchange services or exchange access services (if at all) exclusively in geographic areas served by a dominant local exchange carrier that is not a party to the transaction; and neither of the applicants is dominant in the provision of any service.'

Dynegy Connect provides interstate telecommunications services throughout the continental United States. 360-CMI is a wholly owned subsidiary of 360networks Corporation, a provider of telecommunications services and network infrastructure in North America to carrier and data communications companies.

Dynegy Connect will be transferred to 360-CMI pursuant to an agreement whereby 360-CMI will acquire 100% of the equity of DGC. Including the interests of its wholly owned

¹ 41 C.F.R. § 63.04; see 47 U.S.C. § 214.

² Applicants have also filed an application for transfer of control **in connection** with international section 214 authority. Any action on this domestic 214 application is without prejudice to Commission action on other related pending applications.

³ On March 25, 2003, Applicants filed an amendment in this docket requesting streamlined treatment for their application under section 63.03(b)(2)(i).

subsidiaries, DGC presently holds an 80% partnership interest in Dynegy Connect. Prior to closing, DGC will acquire the remaining 20% partnership interest in Dynegy Connect, which is presently held by Telstra, Ltd.

Applicants state that the proposed transfer of control will serve the public interest, convenience and necessity by promoting competition among telecommunications carriers. Applicants state that approval of the proposed transfer of control of Dynegy Connect from DGC to 360-CMI will enable 360networks Corporation to expand its existing fiber network and thereby increase its operational flexibility and efficiency in developing high-quality, reliable and innovative broadband network service offerings across North America. Applicants assert that these enhancements will inure directly to the benefit of existing customers of Dynegy Connect and ultimately to consumers in the domestic telecommunications marketplace.
